## THE ATINA LIFE INSURANCE COMPANY

Grew out of the Old Atina Fire Insurance Company, having been first organized as a Branch of that  
Company. The plan was afterwards separated from the Fire Insurance Company, and the Life Insurance  
Company was organized, with the same stockholders as before. In 1861 the Mutual was combined with the Stock  
plan, by the combination the insured received the benefit of the Mutual Co. and the Stock plan, which a safely  
invested capital funds. Since that time the Mutual has enjoyed unusual prosperity, and increased its business  
until it is now one of the largest and most successful of its kind in the United States.

The Receipts for the Year 1865 were \$201,454 67.  
The Receipts for the Year 1864 were 694,827 53.  
The Receipts for the Year 1863 were 688,989 57.

The number of Policies issued during the year 1865 was 8819.

The Mutual is now growing rapidly, and its business is well regarded by competent  
authorities as the true measure of success.

The ATINA pays 30 per cent. dividend on the premiums of ordinary Life Policies two years from the  
first payment of premium. This is 6 per cent. better than the 24 per cent. dividend paid by other  
Companies. Your interest from the first payment of premium. The ATINA gives the usual

Life Plan and the Endowment Plan, also the  
TEN-YEAR NON-FORFEITING POLICIES.

The ATINA stands in new business and with the lowest expenses which is the best guarantee to  
the insured.
